

Announcement of patent registrations from June to July in 2013

OncoTherapy Science, Inc. (hereinafter, "OncoTherapy") announces that OncoTherapy obtained the following patents. OncoTherapy will announce its issued patents every two or three months.

Patents reported here are those of which registration could be confirmed by OncoTherapy from June to July in 2013.

[Patents for Peptide Vaccines]

Patent No. ZL200880019928.7	Country: China
Patent No. 2008218463	Country: Australia
Patent No. 2481118	Country: Russian Federation
Patent No. ZL200680035384.4	Country: China
Patent No. 2483078	Country: Russian Federation
Patent No. 8,455,444	Country: United States
Patent No. 2007311395	Country: Australia
Patent No. 2007340834	Country: Australia
Patent No. 5294271	Country: Japan
Patent No. 8,470,968	Country: United States
Patent No. 2486195	Country: Russian Federation
Patent No. 5299942	Country: Japan
Patent No. 2487886	Country: Russian Federation

OncoTherapy is promoting with the research and development of cancer peptide vaccines which can induce specific immune responses against cancer, and is conducting clinical trials using these cancer peptide vaccines by themselves or jointly with its licensing partner companies. The above patents obtained by OncoTherapy are related to those peptide vaccines, and are expected to accelerate the clinical developments.

[A patent for Screening Methods of Cancer Drug Candidates]

Patent No. 5272134	Country: Japan
--------------------	----------------

OncoTherapy is promoting with the research and development of molecular target drugs which target molecules associated with cancer growth. The above patent obtained by OncoTherapy is related to methods of screening for candidates of those molecular target drugs.

OncoTherapy will continue to strategically obtain patents for anti-cancer drug candidates, including peptide vaccines, in order to promote the research and development of more effective and safer anti-cancer drugs.

OncoTherapy has decided to leave fiscal 2013 full-year forecasts announced on 15th May, 2013 unchanged.
